ENTRY REQUIREMENTS

Admission of foreign citizens to study under contracts for the provision of educational services is carried out on a competitive basis (based on the results of entrance tests conducted by the university).

APPLICATION

Application for acceptance of documents for enrolment (by mail)
Consent to the processing of personal data of the applicant.

Letter of consent

Identity document, citizenship

Academic degree

Documents confirming the individual achievements of the applicant

An agreement on the provision of paid educational services (for admission on a contractual basis)

PROGRAM STRUCTURE

From the range of general subjects students study philosophy, Russian history, computer science and information technology, sociology, botany, anatomy and first aid and emergency response.

A foreign language is taught for 2 years.

Organic and analytical chemistry, molecular biology, morphological diagnostics of human diseases and pathology are studied in-depth.

Also there are such subjects as medical biochemistry, first aid in case of emergency, legal fundamentals of pharmaceutical activity and economic theory.

Pharmacology is studied for a long time (3 semesters).

Students are offered 8 elective courses. The main types of educational activities are lectures and laboratory and practical classes, which are held in the educational and scientific laboratories of the Institute of Pharmacy, Chemistry and Biology.

Classes are also held in scientific and educational complex " BelSU Pharmacy".

CAREER OPPORTUNITIES

As part of the development of the pharmaceutical cluster of the Belgorod region, there is an acute shortage of pharmaceutical specialists both for pharmacy organizations and for production and technological structures to carry out activities at chemical and pharmaceutical enterprises in the region, as well as in research and production laboratories. Graduates can continue their postgraduate studies.
